

# CMInternational

PROJECT AND CONSTRUCTION MANAGEMENT SERVICES

## Background

CMInternational (CMI) is the specialist Project / Construction Management division of TCS. TCS is an outsourcing service provider (formed between FPDSavills of the UK and Trammell Crow Company from the USA) established specifically to provide independent management services to enable the delivery of complex, high-quality projects in the built environment. CMI is staffed and managed by over 150 of the most experienced professionals operating in the world today. We combine a proven track record and knowledge of local markets with a real understanding of the specific needs of users.

Key TCS / CMI Asia Offices
